### Waiting List Agreement

I, \_\_\_\_\_, the buyer/s want to adopt a Royal Velvet Sphynx kitten. I understand and acknowledge the terms of the waiting list I have read in full the three pages included in this document. I acknowledge and approve the general contract I will be required to sign. I am not at this time committed to any add-on options or choices but I acknowledge I will need to decide my options prior - by the time my kitten is 8 weeks old. Please accept my \$25 non-refundable deposit & completed information below, in which is required to be added on to the waiting list. With also the understanding of an additional \$275 due – to reserve a kitten – once chosen. For a total of \$300 non-refundable reserved deposit. That will be deducted from total kitten cost.

Signed: \_\_\_\_\_ Date: \_\_\_\_\_

Print name: \_\_\_\_\_ Phone: \_\_\_\_\_

Special needs (male/female, color, sphynx/elf/bambino, no preference):  
\_\_\_\_\_

Thank you for requesting information about Royal Velvet Sphynx kittens. The following pages are printable and filled with everything from - the purchase process, waiting list process, pricing, etc. Royal Velvet Sphynx is a small TICA registered cattery. Our cats are carefully selected for quality and health. Our cats are pre-screened yearly - by a board-certified cardiologist - testing normal for HCM. We also genetic test yearly as well as upper PCR test. All testing results provided upon request.

All kittens come to you vaccinated with a minimum of two fvrpc vaccines, free of parasites and disease, HCM guarantee, genetic health guarantee, spay/ neutered, health records, huge care package, TICA registration (some delays expected with covid), 30-day free pet insurance, and lifetime breeder support.

Most kittens are not born looking like they will as an adult especially point or mink patterns. We do our best to determine a kitten's color as early as possible. Most kitten color categories will be determined around 2 to 6 weeks of age. All kittens are born with blue eyes. Eye color does not begin noticeably changing until 4 to 6 weeks of age. At times it may take longer - sometimes up to 16 months for a kitten to fully develop skin and eye color. Color will vary and change usually deepening and amplifying patterns.

Royal Velvet kittens are of the highest quality and your experience will be unique and personal to ensure the perfect kitten match for you. To be placed on the waiting list it is \$25. This ensures your name goes on the list and that you will be contacted in the order of received deposit and signed acknowledgment. This \$25 non-refundable waiting list deposit, goes towards the non-refundable reserve deposit of \$300. Once a kitten has been chosen. The balance reserve deposit of \$275 is due within 24 hours of selection or kitten will be marked available again. The \$300 reserve deposit will be deducted from the total cost of the kitten. Prices of kittens vary. There will be no refund. If for some reason you cannot get reserved kitten your reserve money will be held for two years. And can go towards another kitten in the future. Always inquire what number you will be on the list prior to submitting your deposit. We cannot guarantee - how many kittens each Queen will have. Or when our Queens will give birth. Therefore we cannot guarantee a time frame of when a kitten will be available. However, we typically have a new litter every few months. Kitten Prices are guaranteed for one year from the date you are added to the list.

Once on the waiting list, you will be offered any available kitten from the next litters in the order you fall on the list. And will have the option to select any available kitten or pass to wait until the next litter. We give each person 24 hours to pick or pass. If you choose to pick you will have 24 hours to pay us the remainder of the reserve deposit of \$275 (totaling 300\$). It is recommended to follow us on Facebook and Instagram as breeding announcements and birth announcements are posted there.

Deposits: We accept paypal and cash app.

Any PayPal transaction fees will be your responsibility. Generally, PayPal charges 4%.

Balance: Balance must be paid in cash at pickup. Or 2 weeks prior to pick up if using PayPal or cash app. Please remember to add 4% to the total to cover the PayPal fees.

Contract can be viewed anytime on our website. [www.RoyalVelvets.com](http://www.RoyalVelvets.com). Royal Velvet Sphynx has many add-on options for purchase, warranty, and travel.

These options will need to be decided at time of contract. Once kitten hits 2lbs or 10/11 weeks, it will be spayed/neutered. Healing times sometimes can vary but typically our kittens are ready to go between 14-16 weeks old.

We send weekly updates and are always available for any questions.

If the kitten is flying - a USDA health certificate and rabies vaccine is required and cost roughly \$125 extra. We do not ship via cargo. We only ship with a pet nanny that we have used for years. Her fee is \$500. If you plan to pick up your kitten - we can meet you at the airport for no additional charge or meet with in an hour driving radius for no additional charge.

We do require a signed contract prior to pick up or delivery. This contract identifies the kitten, the buyer, our cattery terms, health records, and choices of your add-ons.

Visiting our cattery - We do allow visitors but only after kittens have received first vaccine. Young babies are susceptible to viruses that can be brought in on our shoes and clothes – therefor only after vaccines – do we allow visits.

Scam victims - Please be aware that there are several scams going around right now. Please feel free to check with any of our previous Kitty owners for your added security. You can also find us on the TICA website as a registered TICA cattery.

Prices may vary. Pet Only.

Standard Sphynx \$2000 non odd eye

Elf Sphynx \$2200 non odd eye

Bambino \$2400 non odd eye
